CONSTRUCTION NOTICE 3/16/2022
GROVE AVENUE RECONSTRUCTION

Dear Resident,

Asphalt Surface Removal planned for 3/17

The project Contractor, A Lamp Concrete Contractors, has advised they will be on site tomorrow, Thursday March 17th to remove the top layer of asphalt pavement from Grove Avenue (Ogden Avenue to Chestnut Street). Traffic will be maintained on the remaining pavement after the top layer of asphalt is removed. Residents will not lose access to driveways other than a brief period while the pavement milling operation is in front of your driveway. Please do not park on Grove Avenue during working hours tomorrow.

Work scheduled for week of 3/21

Early Monday, March 21st the Contractor has advised they expect to place traffic control devices and will implement the closure of the east side of Grove Avenue. **The Contractor plans to start pavement removal work on the east side of the street on Grove Avenue at Chestnut Street and they will work northward towards Ogden Avenue.** It will take the contractor several days to remove all of the pavement on the east side.

Driveway Access for East Side Residents beginning week of 3/21

Once the pavement removal operations have reached your driveway you will be without driveway access for 3-4 weeks while the reconstruction process occurs. Residents on the east side of Grove between Chestnut Street and Maple Street should expect to lose driveway access on Monday. East side residents on the Chestnut Street to Maple Street block should move their vehicles to the street before 7:30am on Monday 3/21.

Residents on the other two blocks may utilize their driveways up until the pavement is removed. Residents on the Maple Street to Oak Street and Oak Street to Ogden Avenue blocks should anticipate losing driveway access later the week of 3/21. A project team member will knock on your door before driveway access is removed to ensure you are able to get your vehicles out.

Driveway Access for West Side Residents beginning week of 3/21

West side residents will have nightly driveway access while the project work on the east side is occurring. It is important to note that during working hours if there are construction activities occurring on your block there will be construction trucks and equipment blocking the road for long periods of time. It is recommended that you park on a side street should you need access to your vehicle during the day.

Thank you in advance for your patience and understanding!
