EAST SIDE DRIVEWAY CLOSURE NOTICE

Lawn and Grand, 47th to 49th Street

May 5, 2022

Dear Resident,

First, I'd like to apologize for not providing more advanced notice about this project. The 2023 Asphalt resurfacing program is starting earlier than we anticipated as the contractor had availability. The Village mailed a project notice earlier this week that you should be receiving in the mail. That project notice contains complete details about the project. It can be viewed on the project website www.wsprings.com/2023asphalt.

Project Construction Sequencing: Stage 1 – East Side Curb & Gutter replacement

East Side Residents: On Monday, May 8th we anticipate the contractor will begin removal of the east side concrete curb and gutter on both streets. Once the curb and gutter are removed, **east side residents will be without driveway access for at least 2 weeks.** The contractor will knock on your door prior to removing the driveway access. During this time the project contractor will be prepping and then placing a new concrete curb and gutter followed by a new driveway apron. During construction working hours (7:30 am to 5:00 pm), east-side residents will need to park their vehicles on a nearby side street that is not under construction (48th Street, 49th Street, or Lawn and Grand south of 49th Street). Residents may park on the west side of Lawn and Grand within the work zone after 5:00 pm each day but those vehicles will need to be moved prior to construction work starting at 7:30 am. No work is currently planned for weekends. The Police Department has already been notified about the need for overnight street parking.

West Side Residents: West side residents will have driveway access while the work on the east side is ongoing. There may be traffic delays due to construction activities. You will receive a notice prior to project work switching over to the west side of the street.

Project Contact Information

The Village is utilizing a consultant engineer, Christopher B. Burke Engineering Ltd., to provide construction inspection services on this project. The Resident Engineer is Boris Vukovic, bvukovic@cbbel.com 847-975-6929, who will generally be on-site and is the best point of contact for any immediate project concerns or driveway outage coordination issues. Finally, should you have any general project questions or concerns please don't hesitate to contact Staff Engineer Inga Cebelis at 708-246-1800 ext. 276 or via email icebelis@wsprings.com.

Sincerely,
VILLAGE OF WESTERN SPRINGS

Jefferey A. Koza, PE, CFM
Village Engineer
