

EAST SIDE DRIVEWAY CLOSURE NOTICE

Harvey Avenue, 41st Street to Hillgrove Avenue

May 11, 2023

Dear Resident,

The Contractor expects to start placement of new concrete on the east side of the street starting Tuesday 5/16/2023 (weather permitting). This work will require the closure of all east side driveways during the construction of the east side. The driveways will not be reopened until after the east side pavement is installed and the new concrete has sufficient strength. Please find additional information about what to expect below.

East Side Residents:

East side residents need to move their vehicles to a nearby side street before 7am on Tuesday, May 16th. Due to the construction of the new concrete on the east half of the street concrete street, **east side residents will be without driveway access for approximately 3-4 weeks**. While your driveway is out you will need to park your vehicles on a nearby side street that is not under construction. On past projects some residents were able to driveway share with a neighbor on the other side of the street or with their backyard neighbor. If parking on the street, please make sure you have a current Village vehicle sticker and that you do not park within 20 feet of an intersection or within 15 feet of a fire hydrant. The Western Springs Police Department has been notified of the need for residents to park overnight on the street.

West Side Residents:

West side residents will have driveway access while the work on the east side is ongoing. There will be traffic delays during working hours due to construction activities. Anticipate construction equipment and trucks will be blocking the roadway in the work zone during working hours. You will receive a notice prior to project work switching over to the west side of the street.

[Project Contact Information](#)

The Village is utilizing a consultant engineer HR Green, for construction inspection services on this project. The consultant contacts are Kevin Berry – Project Manager, 815-509-5268 and Brad Kowitzke – Resident Technician, 815-593-0021 who will generally be on-site and they are the best point of contact for any immediate project concerns or driveway outage coordination issues.

Thank you for your continued patience as we complete these improvements.

Sincerely,
VILLAGE OF WESTERN SPRINGS

Jefferey A. Koza, PE, CFM
Village Engineer
